Subject: Draft comparison table

ATTACHMENT: Alternative Comparison2.xls

Hi everyone, Attached is a comparison table for cost estimates and timelines for the various dredging and CAD Cell alternatives. We tried to consolidate the most relevant and comparable information (we only listed the assumed 3.5% COLA for example) as we have generated so many cost estimates it's difficult to compare the alternatives without doing so. Let us know if there is something else you'd like at this point. Otherwise what we plan to do is revise the information provided to date we based on all com receive and then assemble one complete submittal with cover letter as we did for Alternative 2 in April.

Mike
